

Sustainable Biofuels Regulations Standards and Certification Workshop

**18 – 19 September, 2012
Brussels Belgium**

Cosponsored by:

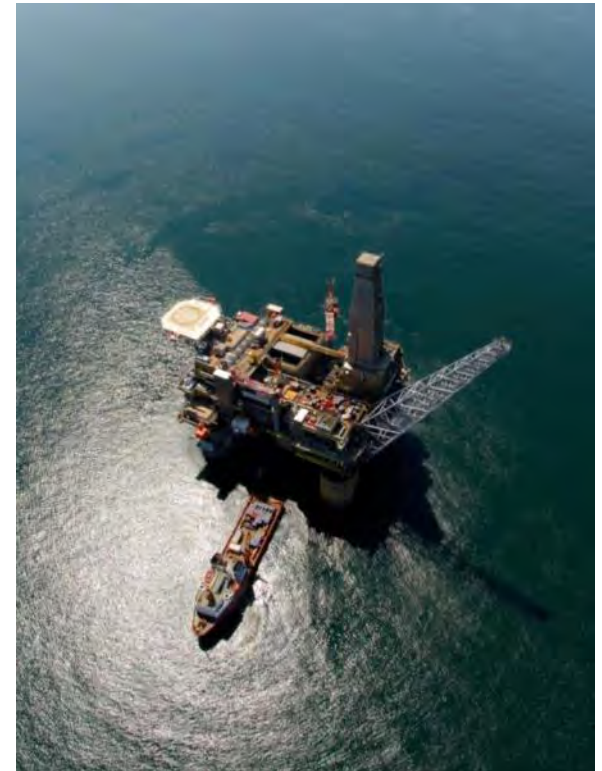

concaawe

What does IPIECA do?

- IPIECA helps the industry improve its performance by:
 - Developing, sharing and promoting good practices and solutions
 - Enhancing and communicating knowledge and understanding
 - Engaging members and others in the industry
 - Working in partnership with key stakeholders
- IPIECA is the industry's main channel of communication with the United Nations
- IPIECA members support operational efficiencies, which lead to emissions reduction

Elements of IPIECA

- **OGP-IPIECA Health Committee**
- **Oil Spill Working Group**
- **Biodiversity Working Group**
- **Climate Change Working Group**
- **Social Responsibility Working Group**
- **Operations, Fuels, and Product Issues Committee:**
Co-ordinates industry's response to operational and product issues affecting the downstream supply chain, including biofuels, marine and product stewardship
 - Operations Good Practice Series
 - **Biofuels Task Force**
 - Sulphur in marine fuels
 - Phase out of leaded gasoline
 - Close links with UN bodies

CONserva**tion** of **C**lean **A**ir and **W**ater in **E**urope

The Oil Companies' European association for health, safety and environment in refining and distribution
(founded in 1963)

Operating Principles:

- ✓ Sound science
- ✓ Cost-effectiveness of options
- ✓ Transparency of results

- Automotive Emissions & Fuel Quality
- Air Quality
- Water/Soil Quality & Waste
- Oil Pipelines
- Safety
- Refinery Technology Support
- Health Science
- Petroleum Products
- Risk Assessment
- REACH & GHS Implementation

- Represents almost 100% of European refining capacity
- Not for profit association, research funded by Member Companies

Workshop

Objective: Review the status of biofuels regulations, understand how sustainability standards are implemented, and consider how to improve standards' effectiveness.

Meeting Participants: Petroleum Companies, Biofuels Producers, Regulatory Bodies, Academics, Auto Companies, NGOs, Consultants

A healthy dialogue, a status check, an opportunity to improve the industry, a chance to give feedback, a chance to reconnect with colleagues or make new contacts

Insights

**Respectful discussions are welcome –
as long as everyone gets a chance to speak**

**We have a full agenda and will stick to it, but feel free to log
additional items so we can discuss at the next opportunity**

**How do we improve, and learn from others?
(this is a process check – we're farther than some industries,
but not as far as others)**

**Biofuels sustainability can mean different things to different
people. What does it mean to you? How can the petroleum
and biofuels industries make this happen most effectively?**
