

## Step by step guidance for signing up a company (Legal Entity) in REACH IT

### Disclaimer

The information that CONCAWE provides on its Website represents opinions and is intended for guidance only. Whilst the information is provided in utmost good faith and has been based on the best information currently available, it is to be relied upon at the user's own risk. No representations or warranties are made with regards to its completeness or accuracy and no liability will be accepted for damages of any nature whatsoever resulting from the use of, or reliance on, the information. Documents published by CONCAWE are based on interpretations of Regulation (EC) 1907/2006 (REACH Regulation) as well as guidance provided by and information obtained from the European Chemicals Agency.

### When to use this guidance

Please use this guidance in conjunction with the guidance issued by the European Chemical Agency and the comments and suggestions from CONCAWE (see page <http://www.concawe.org/Content/Default.asp?PageID=469> on the CONCAWE Internet website).

The guidance applies to those cases where a legal entity wishes to sign up directly on the REACT IT website. At a later stage the Legal Entity Object (LEO) will have to be downloaded as an XML file (LEOX) and be incorporated into IUCLID5.

### Note: LEOs are currently not yet downloadable.

The guidance uses a theoretical example of an LE. Guidance can be found in text boxes (  superposed on screenshots.

This guidance will soon be complemented by similar guidance for the pre-registration of substances.

### Step 0:

Download the Excel spreadsheet template for archiving the information entered and generated during the sign up process.

### Step 1: Open the REACH IT website:

<https://reach-it.echa.europa.eu/reach/public/welcome.faces>

The following screen appears:

## Reach-IT

Welcome to REACH-IT

REACH-IT provides an online platform to submit data and dossiers (pre-registration, registration, C&L notification, ...) on chemicals. It also allows the Agency and Member States authorities to review the dossiers. The Agency will also use REACH-IT to make non-confidential information on chemicals accessible to public on its website.

### What can you do?

To login to REACH-IT you first need to sign-up and provide information on your identity and set-up an account for a user who will have administrator privileges to manage your account. You can sign-up either as a company or as a third party.

- If you already have an account, you may [login](#) to the system.

If you have not created an account yet, you can do it here below.

- [Sign up as a company](#)
- [Sign up as a third party representative](#)

### Need help with REACH-IT or with this site?

## Reach-IT

Company sign-up > Terms and conditions

Signing-up as a company is a simple process. You will be guided through the following 5 steps:

1. User account - Create a REACH-IT account (login + password) for your company
2. Company information - Provide general information on your company
3. Billing information - Provide billing details for your company
4. Contacts [optional] - Add information about people who may be contact points in for example SIEFs
5. Validation - Check information you have provided and modify if necessary

Before going further in the sign-up process, please read the following terms and conditions:

### Terms and conditions

TERMS AND CONDITIONS OF USE AND SERVICE OF REACH-IT

PLEASE READ THE FOLLOWING TERMS AND CONDITIONS RELATING TO YOUR USE OF REACH-IT CAREFULLY BEFORE ACCEPTING TO ENTER THE SITE.

By using REACH-IT, you agree to these Terms and Conditions of Use and Service ("Terms") including its data protection provisions. The European Chemicals Agency (ECHA) reserves the right, in its sole discretion, to change, modify, add or remove portions of these Terms at any time, without notice to you. You should check these Terms periodically for changes. By using REACH-IT after we post any changes to these Terms of use, you agree to accept these changes, whether or not you have reviewed them. If you do not agree to these Terms, you should not use REACH-IT.

REACH - IT User Info

# ECHA

Company sign-up User account

User account: Company information Billing information Contacts Verification

You need to specify a REACH-IT administrator for your company account. This administrator will be granted special rights (creation of additional REACH-IT company information, etc). Please provide the requested information here below.

Fields marked with an asterisk (\*) are mandatory. Hovering over a (?) sign displays help information.

### User information - General

First Name: test

Last Name: person

E-mail: test\_person@test-person.com

User ID: test\_person

Password: \*\*\*\*\*

Re-type password: \*\*\*\*\*

### Security

Security question: Who was your childhood hero?

Your answer: Pe e

### User preferences

Language: English (en)

### Verification

Enter the text shown: n7n58

Can't read the text below? [Try another](#) (Clicking on the link will empty the password fields)

17158

### Step 4 cont'd:

- As a general rule, fields indicated by a red asterisk have to be filled in. Information in all other fields is optional.
- First and last name of the User Account: It is not mandatory that you use the name of a person. You can use any other name as long as you fill in both fields.
- The e-mail address can also be a corporate or (preferable) a functional mailbox.
- We strongly suggest to create a meaningful User-ID. Please note that the User Account will be in use at least until all the registration process is completed. A meaningful User-ID will be easier to remember.
- Make absolutely sure that you note the password, the security question/answer in the Excel spreadsheet template and archive the spreadsheet where it can be retrieved at least until the registration process is completed, preferably even thereafter.

This security test can be repeated without losing the information entered above.

encode your information into REACH-IT. REACH-IT will then attribute to your company a Universal Unique Identifier (UUID). If you already have a company definition file in the IUCLID format (also known as the LEOX file format), and if you want to have the same UUID for your REACH-IT company definition as for your IUCLID LEOX, you should imperatively import your LEOX, and not enter your company information directly in REACH-IT. Please load the file in which your company information has been saved. Fields marked with an asterisk (\*) are mandatory.' Below this text is a form with a 'File name:' label and an empty input field. A blue callout box with white text is overlaid on the right side of the page, pointing to the 'encode your information' link. The callout box contains the text: 'Step 5: Note: This guidance is for those who wish to sign up an LE directly in REACH IT. It is not for those who wish to export an existing LEOX into REACH IT. Therefore click on "encode your information".' The Windows taskbar at the bottom shows several open applications: 'Pre-registration', 'T-Mobile web'n'wal...', 'REACH - IT Import ...', 'Inbox - Microsoft O...', and 'Microsoft PowerPoi...'. The system tray on the right shows the date 'DE', the time '01:10', and various system icons."/>

**Step 5:**

Note: This guidance is for those who wish to sign up an LE directly in REACH IT. It is not for those who wish to export an existing LEOX into REACH IT.

Therefore click on “encode your information”.
